The judges in the contest will be chosen from among the foremost musicians in the country, and their names will be announced later. All manuscripts must be submitted in score form, before the first of May. The prize-winning composition will be given its first performance some time in June, at Columbia University, by the New York Military Band, and Mr. Goldman will grant the fortunate composer the privilege of conducting his own work. Brua C. Keefer, president of the Brua C. Keefer Mfg. Co., manufacturers of band instruments, Williamsport, Pa., has announced his candidacy for Congress, to represent the Fifteenth Pennsylvania District, comprising Clinton, Lycoming, Potter and Tioga counties. Mr. Keefer has always been looked upon as a model employer, and has been a user of the union label to a considerable extent, both on his own product and upon the printed matter relating to his product. If elected he would bring to the office a broad experience in public life and a wide knowledge of industrial and economic matters affecting the welfare of the country as a whole and of his district in particular. He has served several terms as president of the Select Branch of Williamsport Councils and served as Food Controller of Lycoming County during the war under Mr. Hoover, national food controller. Mr. Keefer is a lawyer and an accredited member of the bar, but for the last thirty years has devoted himself exclusively to the manufacture of band instruments, in which his company enjoys a large business not only in this country but with various South American and European countries. He became associated with the late Henry Distin back in the 80's, and later succeeded to the presidency of the Distin Company, still later becoming its president and changing the firm name to its present form—the Brua C. Keefer Mfg. Co. Combining business ability, legal training and a comprehensive grasp of the larger public problems, with distinctly liberal tendencies, the voters of Pennsylvania's Fifteenth Congressional District should, and no doubt will, be glad of an opportunity to elect so well-equipped a man to represent them in the councils of the nation.—Exchange.

Prize for Best Overture

Hugo Riesenfeld, director of the Rivoli and Rialto Theatres, New York, in his desire to encourage American composers, has offered a prize of five hundred dollars ($500) for the best overture submitted to him before March 31, 1920. The competition will be open to any composer residing in this country. The only condition is that the work must not be of too difficult a nature to prevent its being played with a limited number of rehearsals by orchestras which consist of fifty men. Mr. Riesenfeld has appointed as judges of the contest Kurt Schindler, director of the Schola Cantorum; W. H. Humiston, assistant director of the Philharmonic Society; Josiah Zuro, grand opera conductor; Edward Falck, director of music at the Aeolian Company; Otto Langey, of the orchestral department of G. Schirmer & Co., and Erno Rapee, conductor of the Rivoli Orchestra. Arrangements have been made with Schirmer & Co. to print the prize winning composition and all royalties will revert to the composer. Scores may be addressed to Edward Falck in care of the Rialto Theatre, New York.

A sign in the San Fernando Valley reads: "Tresposers will be persekuted to the full extent of 2 mean mongral dorgs which aint never been ornaly soshibil with strangers and 1 dubbel barelt shotgun which aint loaded with no soty pillers. Book of Unusual Interest

A book of unusual interest to students of the higher form of music published by G. P. Putnam's Sons, New York and London, written by Gustav Kobbe, author of "Wagner's Music-Dramas Analysed" and other works, and styled The Complete Opera Book, has just been received. It is profusely illustrated, containing 100 portraits of operatic artists in costume, and its 850 pages are replete with comment and analysis that more than compensate one for the time spent in studious assimmilation. The cost of the book is five dollars.

Where Pat Was.

In a small village in Ireland the mother of a soldier met the village priest who, seeing her downcast, asked her if she had had bad news. "Sure, I have," she said. "Pat has been killed."

"Oh, I am very sorry," said the priest. "Did you receive word fr. the War Office?"

"No," she said, "I received word from Pat himself."

The priest looked perplexed, and said "Put how is that?"

"Sure," she said, "here is the read it for yourself."

GETTING DOUBLE YOUR MONEY'S WORTH

In these strenuous times, when the price of everything is doubled and tripled, who ever heard of getting twice as much for your money, with the same amount of money than could be bought five years ago. Actually getting more for your money is such a curiosity nowadays, that every reader of this paper will certainly wish to take advantage of this typical "Remick way" of doing business.

HERE IS WHAT WE PROMISED

When we started our Club we promised our members that we would give them twenty-four numbers a year. We have just completed the year, and we will let you be the judge of the value we have given.

Instead of giving our members twenty-four per year, from January, 1919, to December, 1919, in a period of twelve months, we have given our members exactly 42 big dance hits, or in plain English we gave you twice as much as we promised, and this included more real hits than any other club ever sent out in two years.

NOW! HOW ABOUT YOU?

Yes, how about you?

After reading the title of the 42 numbers sent to our members this year for a two-dollar bill, do you think that you or any other reader could afford not to subscribe for the Remick Orchestra Club.

You must admit that this is the biggest "record breaker orchestra club" which ever existed. There never was such a club before, nor will you ever see any other club like it.

If you don't join the Remick Orchestra Club today—now—at once—you lose money, and more important still, when you become a member of our club you get the Remick hits first, and that to a live wire leader is worth a great deal more than the entire subscription cost.

Last, but not least, club members have the privilege of purchasing any of our twenty-five cent dance numbers for the special price of fifteen cents per copy.

Hadn't you better sign up today, using coupon attached?

For enclosed $2.00 make me a member of your Orchestra Club for one year.

ARE YOU WELL HEALD?

You are not unless you play one of our Artists' Instruments.

HEALD CORNETS AND TRUMPETS

Have been made for 30 years by a great master builder. Being specialists in these instruments we make the best Trumpets and Cornets produced. Perfect in tune, tone, intonation, valve action and handsome in design. The entire scale is as even as that of a slide-trombone, due to our equalized wind course for valve and open tones. In our Telescopic Quick Change to A the wind is not diffused and side-tracked around a tiny circle, as in some instruments. Combination mouthpieces, repairing, plating. Send for catalogue.

PATCHES

A New Fox-Trot

By LEE S. ROBERTS

Lyric by J. WILL CALLAHAN

An instantaneous hit!

Every orchestra in and around New York is playing it.

It has a beautiful melody, character, sentiment and pep: but no jazz!

Dave Kaplan's splendid arrangement includes obbligato parts for E flat and B flat saxophones, violin, 'cello, cornet and trombone.

The Chicago Old Clothes Society which believes in the wearing of patches to combat the H. C. of L. has officially adopted the song.

EVERY ORCHESTRA SHOULD PLAY IT

"Bring Him In."

Messenger boy with a telegram for Mr. Jenkins, rings the bell at half-past one in the morning: "Does Mr. Jenkins live here?"

Feminine voice from upstairs, wearily: "Yes, bring him in."—The American Legion.

You Orter See Him Play!

"How's your good husband getting along?"

"Fine! Gone to work again at good pay."

"But I thought he had St. Vitus dance?"

"He has; but he learned to play a saxophone, and then got a swell job with a jazz orchestra."

We're Strong for the Lady.

The fat lady went into a store and, wobbling up to the young clerk, announced:

"I would like to see a waist that would fit me."

The young clerk looked her over, scratched his ear, and remarked: "So would I."

And that's how it started.

EARL FULLER, President

1604 BROADWAY NEW YORK CITY

Extracts from Letters Regarding "EARL FULLER'S COLLECTION OF JAZZ CLASSICS"

"Your collection of numbers is great and will undoubtedly meet with tremendous success."—CONWAY R. SHAW, 1927 Broadway, Galveston, Texas.

"I thank you for your promptness in filling my order. Your JAZZ Collections are a real HIT here."—F. B. SYLVESTER, 7th and Tea Sts., Washington, D. C.

"We thank you for your courtesy in mailing us both books as requested and must say we are immensely pleased with our purchase."—WM. J. NOLL, The Uraeus, 7 Roswell Place, Woodhaven, L. I., N. Y.

"Although I have waited som time for these books to come out, I feel satisfied now after seeing and hearing the numbers that they are worth while waiting for."—REUBEN C. LINDBERG, Florence, Wisconsin.

"I want to say that these CLASSICS are the best I have ever seen. They have much better harmony than the ordinary popular music and when you list them as "CLASSICS" you don't boost them any too much."—HARRY L. MUNSON, Wallace, Idaho.

JOE SAMUELS, formerly leader of EARL FULLER'S SOCIETY ORCHESTRA, said: "I believe that JIGGER JAZZ, one of the numbers in EARL FULLER'S COLLECTION OF JAZZ CLASSICS, will cause more heated arguments between the Orchestra Leader and the Trombone Player than any other number even published, solely on account of the peculiar break at the end of the composition."

"I wish to advise that I have received the EARL FULLER JAZZ FOLIO, and believe me they are the best yet in JAZZ, and want to congratulate your company on the quality of the music."—LEON WALT, Director Royersford Opera House Orchestra, 333 Church St., Royersford, Penna.

"I have played the numbers all over and must say they are all of them simply GREAT. Not a poor number in the book. I am sure no one could keep their feet still when they hear them. Am sure you will sell them very easily."—BESSIE ORTHMAN, 409 No. 9th Street, Manitowoc, Wisconsin.

"We keep colored orchestra and try to keep the latest JAZZ music to be had. As evidence of this would say that your little pamphlet was received only an hour ago and required only a very few minutes to decide that you had something which we want"—R. F. DAVIS, Manager COTILLION HALL, El Paso, Texas.

"Your letter just at hand in which you state that the remainder of our order of JAZZ CLASSICS has been shipped. We are expecting them in any day now, and will sure put in some good rehearsals on them as we expect to feature them strong."—MUSICAL RICHESONS, care of Majestic Theatre, Stuttgart, Arkansas.

"These numbers are going over great, and the folks are beginning to identify them by title, which proves that they are coming into their own in the realm of dance music."—F. M. SOURBEER, 1612 No. Third St., Harrisburg, Penna.

"Received your JAZZ CLASSICS O. K. It's good dope, and sure FOOT WARMERS."—C. R. FETZER, Real Estate Trust Co., Pittsburg, Penna.

"I certainly wish to congratulate you on your style and neatness of book. I look forward to the delivery of the other folios which I know will meet with my expectations. Your style and method of Jazz are exactly to my liking and I will do my utmost to feature your music. Have spoken to several other leaders of your folios and they informed me that they would take advantage of your offer."—CHARLES MAHONEY, Local Union No. 147, Dallas, Texas.

"Received collection of JAZZ CLASSICS at last for which I thank you. Have tried them all and I think they are the best that I have ever played when it comes to Jazz music. And I think that all leaders that hear them will sure send for the collection at once. Whenever you get anything new in Jazz music I wish you would send me sample violin parts at once."—A. F. MILKE, Winona, Minnesota.

"These books arrived here first of the week and had their real try-out on several jobs since then. You can take it from me that all speak a good word for the books and cannot see how you will ever keep up with the orders on these books when they all get playing your numbers. I had two requests this week about the books and told the parties to write direct to your office. The syncopation and these numbers are great; in fact, just like you hear the Jazz Bands on your various records."—C. F. WEBER, 1084½ Frederick Street, Detroit, Michigan.

THE VERY THING YOU'RE LOOKING FOR

you may often cast aside through prejudice. The man who is willing to be shown before passing judgment is the man who wins.

LET ME TELL YOU HOW TO BECOME A BANDMASTER OR AN ORCHESTRA LEADER.

The VanderCook Course not only teaches you the correct way of Directing the most intricate movements so that your band will follow you as one man, but it teaches you to be graceful in your Directing, gives you poise before the public that instantly commands attention and which a successful Director must have. Starting with the rudiments of Directing, it is a course of instruction that even a beginner can understand, leading gradually into the Directing of more intricate passages that will help even the most experienced Directors.

At this writing, December 11th, on account of the fuel shortage, the dance halls are closed, having been closed since December 5th. Resolutions containing facts as to why such action did not in any way, shape or manner conserve, in the matter of fuel, and requesting that such places be allowed to operate two and one-half hours on each day, were unanimously endorsed by this Local and presented to the Mayor and Commissioners, but as yet the conditions remain the same. As the coal miners' strike is now settled, we believe our city government will rescind this order in the very near future.

AT LAST!—ALL AMERICAN OPERA

Presentation of the work of American composers and dramatists, sung by American artists, with all-American orchestra, and a chorus, long has been the dream and hope of the National Federation of Music Clubs, as well as other elements in the United States working for the development of a definite musical art in America.

These elements have determined to work together on a definite plan which includes musical, literary and civic bodies, representatives of progressive American communities, composers and dramatists, and executive and artistic directors, as well as those prepared to afford the movement financial solidity.

This union of forces constitutes the most forward step in the development of American native music in the history of the country. Its far-reaching benefits are readily discernible. The American composer and dramatist of a really notable work are assured a proper presentation and an adequate number of performances. The American artist is assured an opportunity and an audience, and is permitted to devote his abilities to the interpretation of his native tongue and to contribute to the growth of American music.

It is evident that American musical art never will be definitely developed by the employment of the foreign artist and the performance of foreign works. Italy, with less than a third of the population of the United States, possesses sixty-three producing opera houses. The music of Germany and France has been made familiar to the world by its indorsement at home. Russian opera, similarly developed, now is being sung internationally in increasing measure year by year. Of all the great music-loving and music-supporting nations of the earth, America alone, until now, has made no material effort for the encouragement of her native and natural musical genius, and the development of her musical art.

Now, at last, America is to witness American opera, interpreted by American artists of present and future distinction. To this common purpose the best efforts of the most effective elements in our national life are now pledged.

It is the purpose for the coming season to produce on tour throughout America at least, two American operas, the composer conducting in person. Shanewis by Charles Wakefield Cadman and The Legend by Joseph Briel will be produced this season. The principals will be Americans, including many of international reputation and others of definite promise, whose careers await only such opportunity. Orchestra, chorus likewise will be American in personnel. The executive and artistic direction and scenic and mechanical production will be in American hands.

It is a patriotic and historic movement deserving universal American support at a time when as never before, our national consciousness is awakened and when we realize that in art, as in all things, America must take her high place among the nations of the world.

For this policy we look forward confidently to receiving the strong support of all Americans' interest in the development of native opera and national spirit in America.—From The Musical Monitor.

ORGANIZED LABOR

(By W. B. Rubin)

For a long time, the town's most learned fool was the one who constantly delved in the "science" of perpetual motion, and it is well known that the lunatic asylums are filled with the mentally "cracked" who try to make motion perpetual. Their brains, as well as their theories, however, are halted by the ever resisting facts of friction.

What is true of physical science is likewise true of social, economic science. While we still prattle about the law of compensation in this, our individualistic society, yet everything about us is highly and fully organized. The coal supply, the food supply, the clothing supply, the home supply—in fact, everything that man needs is now so highly organized that each constitutes a monopoly in law and in fact; and the only thing that is still in competition is man's appetite—with his ability to satisfy it.

We are now living in an age speeded up by the recent ante-war promises, where Labor, in self defense against organized supply as well as organized demand, has found itself in a position where it must organize and organize rapidly, or submit to the shackles and chains of slavery.

The one patriotic organization, the one stable attempt, the one non-profiteering association during all our period of war, and in this, our reconstruction period, has been, and is, Labor—yet we have many so-called reputable citizens and self-constituted "trump" politicians, a turn-coat mayor, a mountainous senator, a half baked statesman, who would annihilate Labor organizations, who would enact laws to prevent the exercise of their one prerogative, that of strike. They would interfere with their freedom of action. Now that Labor, in spite of courts' decisions, in spite of injunctions, goes on organizing and winning, these so-called respectable citizens and statesmen would enact a law that would make the strike unlawful. Unrest must be stopped—that is their claim. Rest at any price, even though it mean slavery.

But the organization of Labor goes on, more and more, greater and stronger than ever. Necessity is the driving force of organization, and Labor has come to its own understanding. Never again will Labor attempt to obtain, by unorganized efforts, that which it obtains so much more efficiently through organized effort. The lines are sharply drawn. If Labor is to survive, IT MUST ORGANIZE, for two organized camps are being formed—the one, Organized Labor, and the other, Organized Against Labor.

Stop the organization of Labor, and you might as well deny the laws of gravitation, you might as well legislate that Niagara Falls send its torrents of water upwards. The forces are all the other way.

Labor—the VANGUARD of modern wants! The PROTECTOR of present needs! The CHAMPION of our democracy!

Things are unsatisfactory, it is true, but the burden rests, not upon Labor, but upon the profiteer who, in his miserly hoarding of the world's wealth, fails to read the signs of the time. The dial of the horoscope points one way.

Either RECOGNIZE Labor in full, or society WILL PAY the PENALTY of its ignorance and vice.

A fattening of the goose makes a feast for the epicure, but he pays in the end for his banquet by suffering the rich man's disease. Gorging is not healthful, and is no longer fashionable. Obesity is not a sign of health or strength. Capital grasping at too much is but shortening its own life.

The time has come when we are confronted with this problem: SHALL WE DEAL WITH ORGANIZED LABOR, or with ORGANIZED MOB? The former leads to co-operation and unity in democracy; the latter to destruction and despotism, by whatever name you may choose to call it.

*Local No. 261, United Garment Workers of America, Rensselaer, N. Y., is composed of women and girls employed by the Union Label Collar Company, which manufactures the well-known Bell brand. These working women are having a struggle to keep themselves in the ranks of organized labor, and depend upon the trade unionists of the country for help in their struggle. This can be done by purchasing the Bell brand of collars instead of the widely advertised non-union product. The union collar is made in both the soft and stiff styles, and there are fifty-eight different varieties. Members of organized labor can easily create a great demand for this product and thus assist a struggling organization of faithful unionists.

HARMONICS

Gee, but what a Christmas!
Never fared so well;
Kiddies rushing out the door
Neighbors all to tell.

Big turk on the table
Oyster dressing too;
With things up as high as now
Scarce could think it true.

What of all the worries
Up till Christmas Eve?
That they all had vanished,
Seemed hard to believe.

Yes, I'd often spoke of it
First time since we'd wed,
That we couldn't celebrate;
Might as well be dead.

Only job I'd caught that week,
Twenty-fourth, just think;
But by Gosh, things sure had changed;
Even lots to drink.

. . . . . .

Someone poked me in the ribs.
First time I was blue
When I heard a leader say
"'Home Sweet Home' and through."

Our secretary-treasurer, Frank B. Field, has been appointed a delegate to represent Local 52 at the New England Conference of Musicians, held at Hartford, Conn., on Nov. 30th, 1919.

Two of our local members have been confined to the Norwalk Hospital during the past month: Bro. "Smiling Bill" Senberg with a painful stomach ailment, and he was greatly missed from his customary drummer's chair in the pit of the Palace Theatre, and Bro. Corp. Archie Merriam, who was operated upon for appendicitis at the hospital. However, they are both back with us now and hard at it again—for "you can't keep a good man down."

The theatre business here for the musicians is booming. The Regent Theatre has opened with vaudeville and pictures with a six-piece orchestra both afternoon and evening all week. The Palace Theatre is using five men three days a week and piano full week, and Hoyt's Theatre has reopened after a long period of idleness with pictures three days a week with a pianist, and extra musicians for certain feature pictures. It's easy telling that the war is over and the boys are back in town.

Jno. D. McGuire, solo clarinet, is working at one of the Keith houses.

Fred A. DuFue, our popular director and violinist, is at Albany, Ala., for a few weeks, helping out Gustave Schultz of Local 10.

The York picture house will discontique their orchestra the first of the year. There is no doubt that it is Kyle's Orchestra that has been drawing the crowd and the management will find it out sooner or later.

At the annual election of officers of Local 80, the same old gang was re-elected for another year. They are all right in their way with one exception, and that is the fellow that is always adding to H. C. of L. by his incessant holler for dues, fines and assessments.

Some people never will get any sense. They go right on buying gold bricks and the most joked about low priced car and squak when they get stung.

Sandy Summers has his time all filled up with pupils and county bands that he is teaching. Out in the high timber the other night at one of the rehearsals of the Silver Cornet Band of that place, Sandy called them to attention and started them off. He noticed that "Hiram" who plays the Artist Model E-flat Tuba was having some kind of a struggle with himself, but he finally got straightened out and everything went as merry as a cracked cow-bell. Hiram's "Peerless Band Book for Beginners" had gotten crosswise in the back pocket of his overalls.

Many of the BIGGEST Bandmasters, Cornetists, and Trombonists in America are "taking" the Frederick Neil Innes (HIMSELF) Home Study, Personal Teaching Course. Read what THEY say:

A nationally famous Cornetist writes: "Your novel exposition of HOW to use the "soft" tongue has improved my technique ten thousand per cent. I would't have missed it for a thousand dollars."

A Trombonist, also of national fame whom YOU all know, writes: "Your System of Slurring will revolutionize the art of Trombone playing. Every Trombonist in America should rise up and call you blessed."

A prominent U. S. Army Bandmaster writes: "This is one time in my life that I'm getting a hundred times more than my money's worth. It is really a WONDERFUL Course. I'm only sorry I didn't start sooner. I can hardly wait until you send my next lesson." (The names of these men on application.)

Can YOU afford to drag along in the old groove when the opportunity of a lifetime to STEP UP, to get some of the BIG and HONORABLE places in the world of Music is YOURS for the asking?

If these Courses are not ALL that your most enthusiastic expectations had hoped, if they are not the BEST, the SQUAREST Music Course in the World, and the QUICKEST in RESULTS to YOU, then YOUR MONEY BACK. No arguments, no ifs-nor-ands. YOU the sole judge.

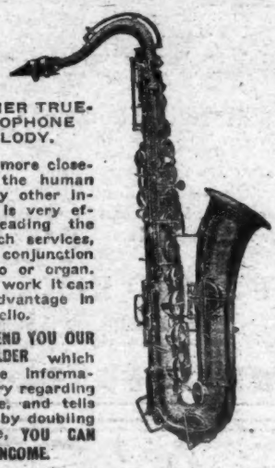
BUESCHER TRUE-TONE

THE BUESCHER-GRAND TROMBONE.

An artist's product for an artist's use. Picture what you would wish for in a Trombone, and you will fully realize your ideal in the BUESCHER-GRAND. It sounds the six tones of each position ABSOLUTELY TRUE in tune from low to loud, and back, with an emotional expressiveness that is pleasing and satisfying to the utmost.



THE BUESCHER TRUE-TONE SAXOPHONE IN C MELODY.

This model more closely resembles the human voice than any other instrument. It is very effective for leading the choir in church services, or at home in conjunction with the piano or organ. For orchestra work it can be used to advantage in place of the cello.

ASK US TO SEND YOU OUR SAXOPHONE FOLDER which gives valuable information and history regarding the Saxophone, and tells you why that by doubling on Saxophone, **YOU CAN DOUBLE YOUR INCOME.**

NO GUESS WORK

The amateur when purchasing a Buescher True-Tone can positively depend upon receiving an instrument made with the same care and accuracy that these professionals and "Top Nothers" whose portraits are shown on this page received when they purchased their True-Tones. Their testimonials with thousands of others are in our files, any of which will be sent on request.

The old-time method of cutting and fitting is a thing of the past, and in fact, inadequate to supply the continued increased demand for True-Tone instruments. The different parts are made by tools and dies that CAN'T SHIRK OR SLIGHT THEIR DUTY even to the one-thousandth part of an inch.

ALL PARTS INTERCHANGEABLE

Practically all parts of a True-Tone instrument are interchangeable, which means **ABSOLUTE ACCURACY** and no guess work. With the old cutting, fitting and guess method, the professional naturally gets the choice, and the amateur who is not capable of judging gets what is left.

A GOLD DOLLAR VALUE FOR EVERY DOLLAR INVESTED

Ask any user of the True-Tone instrument, whether it be Cornet, Trombone, Alto, Baritone, Bass, Saxophone, or Clarinet, what the name True-Tone stands for in the Band Instrument Making Industry—he will tell you that the NAME REPRESENTS RARE STABILITY based upon the following facts: 42 years of manufacturing experience—a factory unsurpassed—a Company that recognizes the customer as a partner in its success—a Company that depends more on perfectly satisfied purchasers for advertising its product than it does on printer's ink—a Company whose motto is "NOTHING IS GOOD ENOUGH THAT CAN BE BETTER." This means that you get when purchasing a True-Tone, a value equal to a gold dollar for every dollar invested, which further means the BEST POSSIBLE EXCHANGE OR SELLING PROPOSITION should you later want to realize on your investment.

TRY A TRUE-TONE—THAT'S ALL WE ASK—Give us an opportunity to prove our claims by allowing us to place a True-Tone instrument side by side of any other make so YOU CAN BE THE JUDGE. WE DO NOT WANT YOU TO PURCHASE A TRUE-TONE if we can not convince you that IT IS THE BEST INSTRUMENT YOU HAVE EVER TRIED.

Urbita Springs Resort has been placed on the unfair or "We Don't Patronize" list by the Central Labor Council of this city with which we are affiliated. This action was taken at the request of the employes of the Pacific Electric Railroad Co., who are on strike for better wages and working conditions, the said resort being owned by the Pacific Electric. This local at a regular meeting Nov. 2nd, 1919, passed a resolution upholding the action of the Labor Council, and our members are refusing their services at this resort until such time as the strike is satisfactorily settled. All locals in this vicinity are requested to take notice and refuse engagements for this company at this resort.

SPECIAL FREE OFFER

A. F. WELDON, Master Teacher.

Here is an offer that no Cornetist, either Amateur or Professional, can afford to pass; write us what course you are interested in (Beginners or Advanced) and we will at once send you ABSOLUTELY FREE—six (6) Weldon Lessons to do with precisely as you like. Send no money, just your name and address. We make this remarkable fall season offer for advertising purposes, knowing that Weldon's Lessons are in themselves their own strongest possible argument. As we have set aside only a limited number of the lessons for this purpose please let us hear from you promptly.

We need not remind you that Weldon, the greatest Cornet teacher that ever lived, spent his entire life in gaining the knowledge that you need to perfect your ability as a Cornet Player. Readers of this publication all know WELDON, but some may not yet know that the Great Master prepared exclusively for this School two Correspondence Courses, embodying the very cream of his life's work as Soloist, Conductor and Teacher; one for amateurs and beginners, and one for professionals and advanced players.

CORNET SECRETS REVEALED.

Marvelous Cornet Secrets are revealed in these lessons of Weldon's and you need them, no matter what your experience may be. If you possessed the knowledge that Weldon's instruction can easily and quickly teach you, your rise to the top of your profession would indeed be meteoric—your quick success would be assured—your personal pleasure, pay and professional prestige would increase by leaps and bounds.

HAVE YOU STUDIED HARMONY?

No cornetist can perfect his work without a thorough knowledge of Harmony, the "grammar" of Music. Harmony teaches you to analyze music, memorize more rapidly, transpose at sight, harmonize melodies, detect wrong notes and to compose, arrange or orchestrate in a musicianly manner. You can quickly "round out" your education by taking our Harmony Lessons under Adolph Rosenbecker and Dr. Daniel Protheroe, America's most prominent Teachers.

Each lesson is an orderly step in advance, clear, thorough and correct; not the mere mechanical application of dry-as-dust rules, but an interesting, intelligent, thoroughly practical method that grips your attention and stimulates your ambition to succeed from the very beginning. A written examination on each lesson, in connection with ample original work, develops your knowledge and firmly fixes the important principles in your mind.

An ounce of proof is worth a pound of promise. We have a solid wall of proof from graduate students. Valuable art catalog, 6 sample lessons, Harmony or Cornet, mailed on request.

The Lyon & Healy Improved Own-Make Trumpet

In *Bb* and *A*, Low and High Pitch. Rotary Change to *A*. Adjusting Ring On Third Valve Slide.

THIS instrument possesses, in the highest degree, the distinctive voice quality which marks the difference between the genuine trumpet and the "hybrid" long cornet so often found masquerading as a trumpet. Clear, sparkling and martial in tone, yet possessing in mezzo voce a beautiful, lyric, singing quality, it is the character of instrument demanded by the great writers of oratorio, symphony and grand opera. It has the flexibility, power and timbre necessary to the rendition of the highest class of music. In smoothness of scale, ease of blowing and facility of playing in the extreme high and low registers it has no rival among instruments of its family.

Sold on easy terms if desired, and sent on one week's free trial.

Built in low pitch and supplied with high pitch slides, or in low pitch only, as desired.

This Trumpet is built on perfect trumpet proportions, of the very best materials obtainable, by workmen of the highest class. It is guaranteed for its entire lifetime against any possible defect in workmanship or material.

$90 to $155

According to Finish

Without Rotary Change to *A*, deduct $5.00 in any finish.

RECORD-SMASHING HITS!

MR. LEADER

These are from the West, where most of the hits now come from. Do you know "Mickey," "Hiawatha," "Smiles," "Vamp," "Sand Dunes," and hundreds of other recent hits came out of the West? You never saw three that looked better for smashing hits, or better dance numbers.

12th Street Rag

Fox Trot Arrangement.

You've been wondering where to get this, the best rag ever written. Well, we are now the publishers, and it's going over big. We are swamped with orders for the song and piano solo arrangements. The orchestra arrangement is great for dancing!

Band or Orchestra, with Saxophones, 25c

LOVE BLOSSOM

Waltz

By Lucien Denni. Arranged by Harry Alford.

The song is wonderfully popular, but that is not the reason we think it will be the biggest waltz hit in the country. It is because it is the most unique, the most melodious waltz melody we ever heard, and the rhythm and style so unusual. Every time the leaders play it, the dancers insist upon its being repeated time and time again.

Don't fail to send for this, the waltz melody of the season.

Orchestra arrangement 25c. Full band 25c.

Cinda Lou

PURE JAZZ

A singing Fox Trot Jazz. By Chas. Beetho.

A wonderful "Get Together" song dance. This is the orchestration of the song which is sweeping through the country like wild fire.

"CINDA LOU" is a natural hit. All we will have to do is to get you leaders to play it once. **Just once!** Then you will want to play it and your dancers will insist upon having it.

Orchestra 25c With Saxophones Band 25c

We think ourselves wonderfully fortunate in being able to offer you at the same time three such attractive dance numbers. Get them and play them on every job!

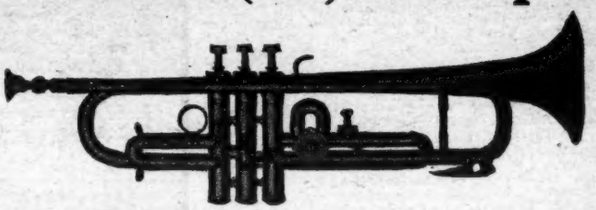
Courtois (Paris) Trumpet



The new model Courtois Trumpet was designed especially to meet the requirements of the most discriminating American trumpeters. In this model, American ideas have combined with the superb workmanship and technical knowledge of the French artisans in creating a trumpet that is practically perfect.

The tone has the clear, brilliant, ringing quality that can be produced only from a Courtois. It is exceptionally easy blowing, having just the proper amount of resistance to insure stability of tone. The intonation is as near perfect as it is possible to attain in valve instruments. In fact, all essential qualities have been developed to the highest degree.

The body and bell are made of the inimitable French brass—the valve pumps of Phosphor Bronze, thus insuring long life and satisfactory service.

If you want a trumpet that will give permanent satisfaction, try a Courtois—

The Dixie "5" Concert and Dance Orchestra, made up of musicians of Local No. 476 and traveling out of here into the Montana country, report business very good on their circuit. Manager Baker says the only trouble he has with the bunch is to keep Chet Lunder from wanting to go to bed at 10 o'clock. Chet got this habit in the army.

The Strand Theatre have increased their orchestra to five pieces in order to put over "The Rainbow Girls" in good shape. Miss Emma Sumpmann is the violinist, Harold Gates, pianist, Arch Stewart, drums, and the Reide brothers on flute and trombone.

Manager Brown of the Colonial Theatre has secured the services of Reidar Edwardsen as pianist in his movie house. Reidar was formerly tickling the ivories with The Society Dance Orchestra but decided to give up the lure of the dance hall for the movies as by so doing he could see the pictures for nothing.

Klitz Dance Orchestra still remains popular and have booked "Gob" Deuel as cornet virtuoso, replacing Chas. Mitchell, who recently left the city.

THE DEPORTATIONS.

Deportations have begun, and by the time this is in print the first batch of Bolsheviks may have reached their now secret destination. There is room for two opinions as to the wisdom of their removal, as there always is when any step is taken which tends to give the dignity of martyrdom to those who are very far from being the stuff of which martyrs are made.

There was evidence in the amount of money carried away by the deportees that the position of Bolshevik agitator in America is a very profitable one. Among fewer than 300 persons nearly half a million dollars was carried away. The modern agitator is no longer a fellow-sufferer with the class he pretends to represent. Vast "campaign funds," and "propaganda funds" pass through his hands and are, in the very nature of the case, loosely accounted for. These agitators travel in Pullman cars, stay at the best hotels, have public halls rented for them at high rates, bask in the doubtful light of "Red" adulation, are heralded in the revolutionary press as the prophets and founders of a new social order; in short, they are permitted to wallow in all that caters to human pride and conceit, and with it all they are paid at high rates for their lectures. It is not infrequent that a "Red" speaker demands and gets $100 a night No wonder the first little group that was deported could show plenty of loose cash.

Agitation of a certain character comes under the head of public amusements or diversions. Just as some people like to go to a play where their emotions may be stirred and they can have "a good cry," so other people like to be told how badly they are abused. Workmen with comfortable homes, healthy and happy families, adequate wages and satisfactory jobs, sometimes feel an irresistible lure to that fiery type of oratory which informs them that they are "crying for bread," and that their children are "going in rags," and that "their very life is being crushed out by the oppressor-class." It is a sort of diversion. It stirs the pulses. It gives visions of mastery. And so they pay for it, and they pay well. The orator himself, of course, sleeps late next day and dines well at an expensive table. Whoever else may be oppressed, he takes care it is not he.

Perhaps this may explain the reluctance with which some of the deportees left America. America was their very generous meal-ticket. In Soviet Russia, it is understood, even the orators are supposed to work for their living.

If only the education of these agitators were the object, perhaps no more effective lesson could be given them than the opportunity to compare the America which they denounce with the other lands which they praise. "Good old America," after everything is said, is still a pretty good place in which to live—and more people find it so, a larger proportion of its inhabitants find it so, than can be said of any other land. The deportees may presently hold the same view.

At the same time, there is a question of policy in liberating in Europe those firebrands of disorder whose vengeance will now take the form of rousing hatred against the United States. Trotsky, the Russian Jew, carried back from New York to Russia an intense hatred of the United States and has been able to inoculate whole territories with the most outlandish ideas of our country and a hatred which is astounding. It may be considered whether it is not a rather serious thing to have "the land of the free" so maligned. On the other hand it is held that good may come even of that—the rushing tide of immigration may be stopped, a tide which had its rise in the opposite extreme, in the belief that Americans were an angelic race and that gold grew on bushes in every street.

Well, whatever the wisdom of the policy may be, it is operative now, and thus far the United States has not felt any loss in those who have left us. The fact remains that however many we may deport there still are thousands left behind to whom we must American principles and institutions.
—The Dearborn Independent.

One on Them.

A preacher conducting a mission announced that he would speak the next night on "Liars." The audience were requested to read up in advance the seventeenth chapter of St. Mark.

Next evening, before opening, with piercing glance, he inquired how many people had read the chapter.

A score or so held up their hands. At which he thundered:

"You're the very persons I want to talk to—there isn't any seventeenth chapter of St. Mark."

Twice Stolen.

"Did the detective discover who it was that stole your jewels?"

"I rather think he did. However, I have another detective hunting for him."—Judge.

"So Blank, our old hard hitter, doesn't play any more. Is he reconciled to married life?"

"I guess so. The other morning I saw him sifting ashes through his old tennis racquet."—Boston Transcript.

EVERETT S. GOULD

I do not hesitate to write and congratuate you on the "Grenadier" Cornet and compliment you on what I believe to be the finest instrument on the market. The easy blowing qualities, tone, valve-action, etc., make it a splendid proposition for any cornetist, and I would strongly urge the advisability of all who are thinking of buying to first try a "Grenadier."

All the different Keefer instruments ordered at various times are equally fine.

EVERETT S. GOULD.

It would be quite a surprise to some small-town bandmen and bandmasters to see the way bandmasters "do things" in New York. As an example, take Everett S. Gould, whose portrait appears herewith. He served a long apprenticeship in smaller bands in smaller cities, gradually perfecting himself in his art and finally locating in New York. There he has an office in one of the well-known skyscrapers—the Marbridge building—of which you may have seen post card photos done in colors. The building is located at Thirty-fourth and Broadway—the whitest spot on the great white way, where he can keep his hand on the pulse of the musical situation and "book" engagements right on the jump.

From his office in suite No. 609 he attends to all the managerial details incident to supplying musicians for all sorts of engagements, from dances and fashionable soirees to parade jobs and park engagements and for the making of phonograph record numbers, etc.
